

Modernizing School Networks

FOR WI-FI POWERED LEARNING

- 1 CONSIDER THE STAKEHOLDERS
- 2 KNOW YOUR REQUIREMENTS
- 3 BUILD THE RIGHT NETWORK

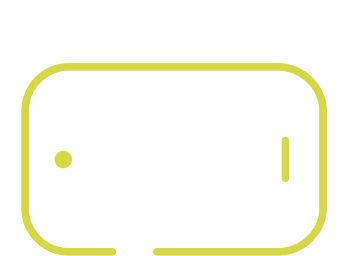

1 CONSIDER THE STAKEHOLDERS

STUDENTS are #GenMobile

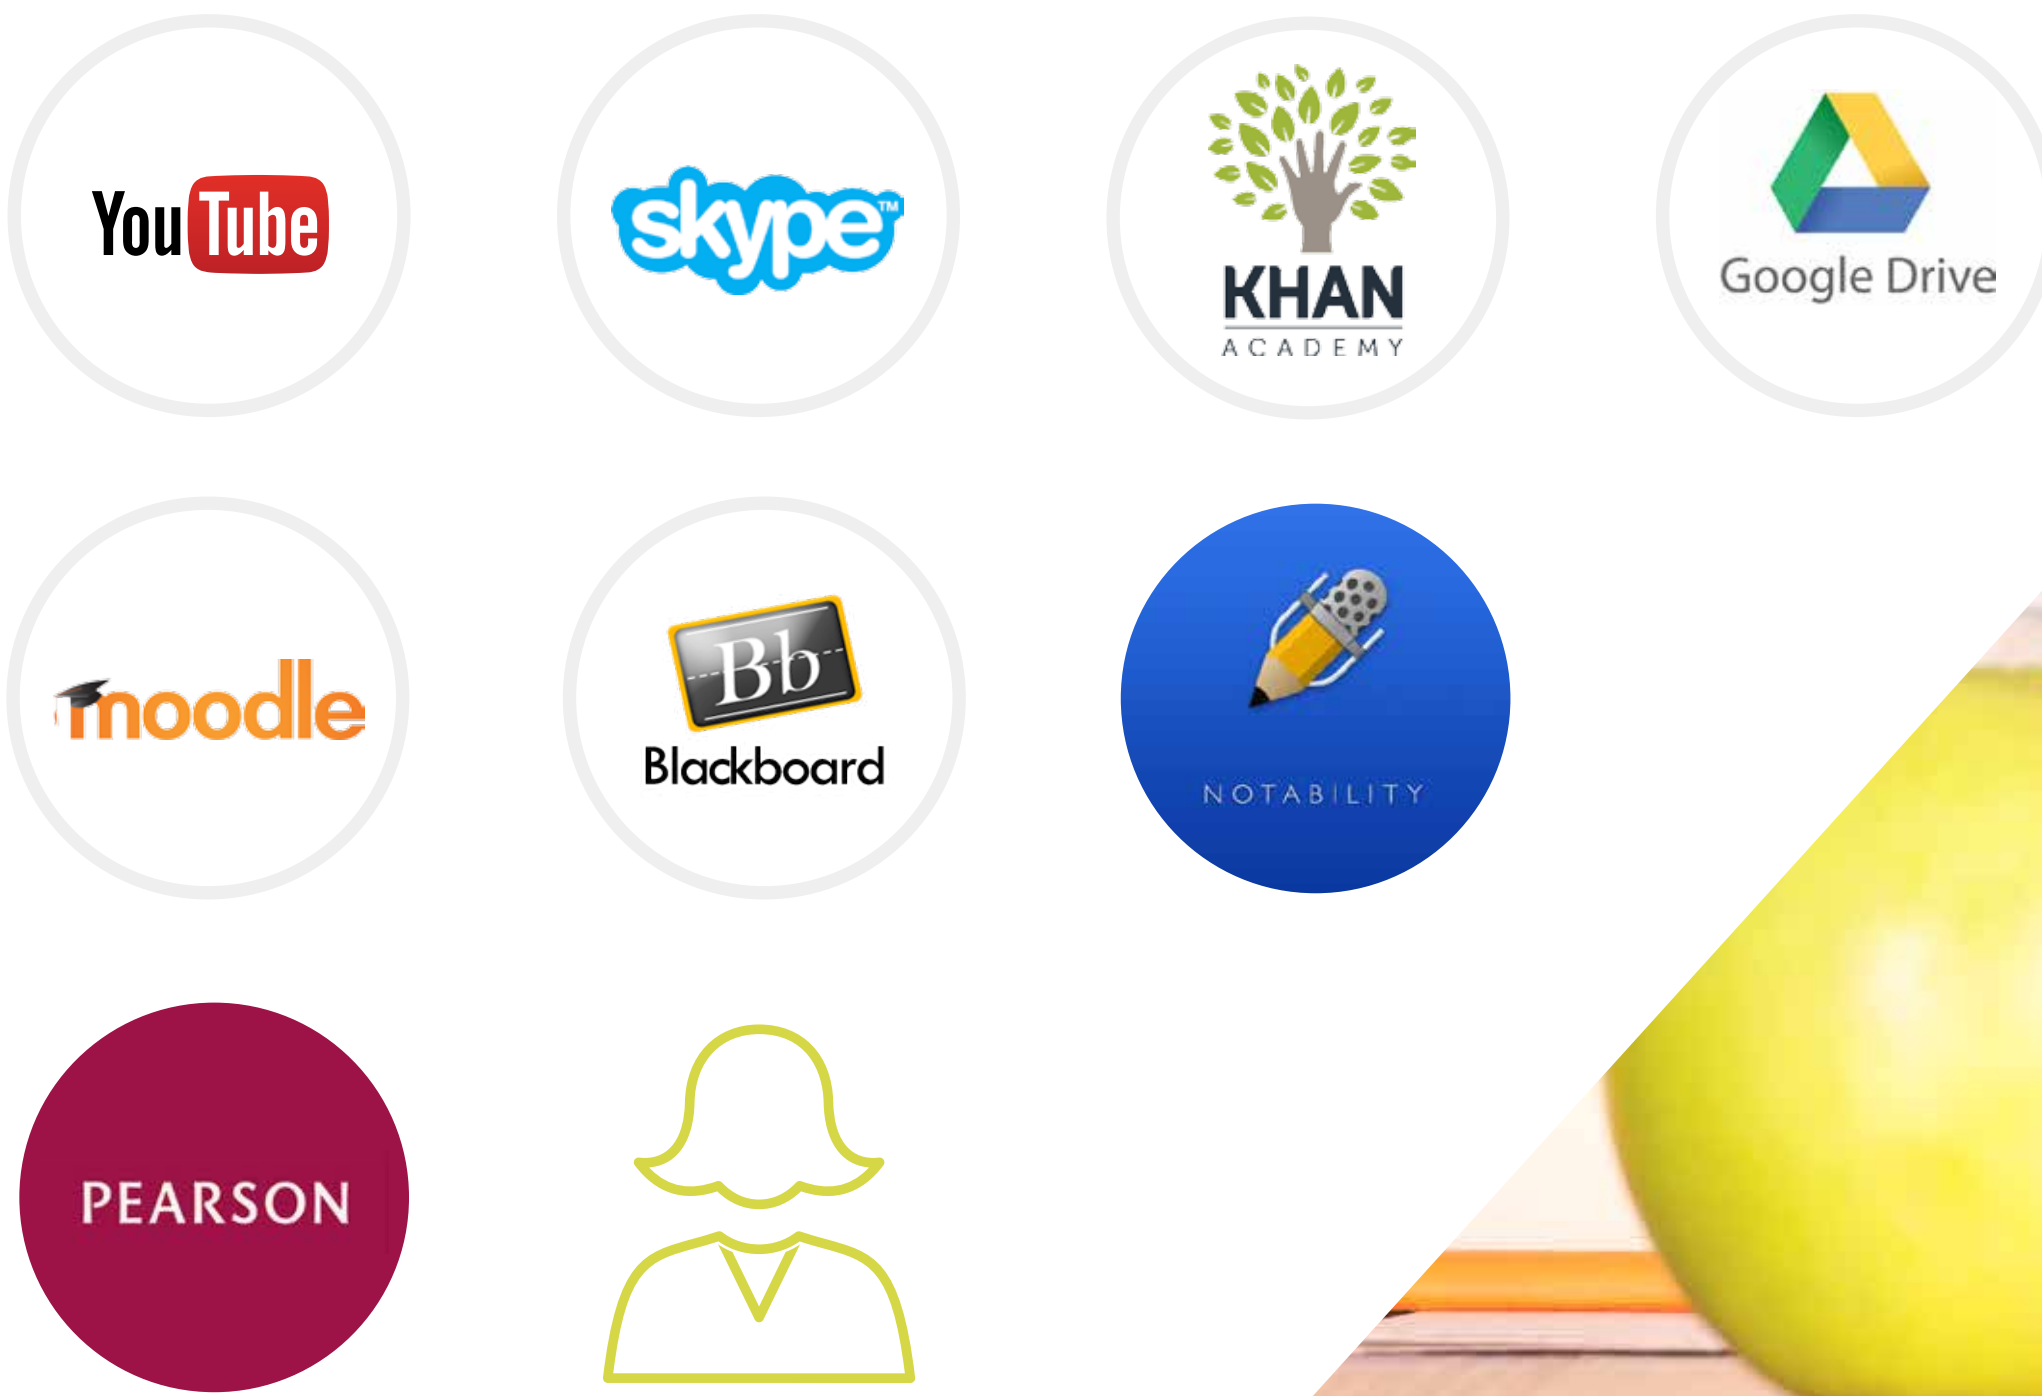

52% of students own personal tablets as early as in middle schools *

75% of students learn through educational games regularly *

38% use social media to collaborate for learning *

TEACHERS need rich education tools

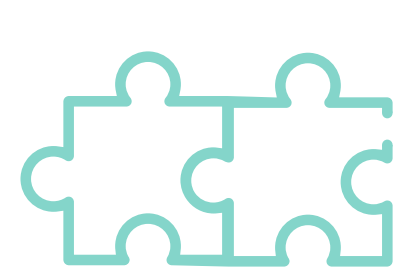

ADMINISTRATORS

need to make strategic investments

Proven technology

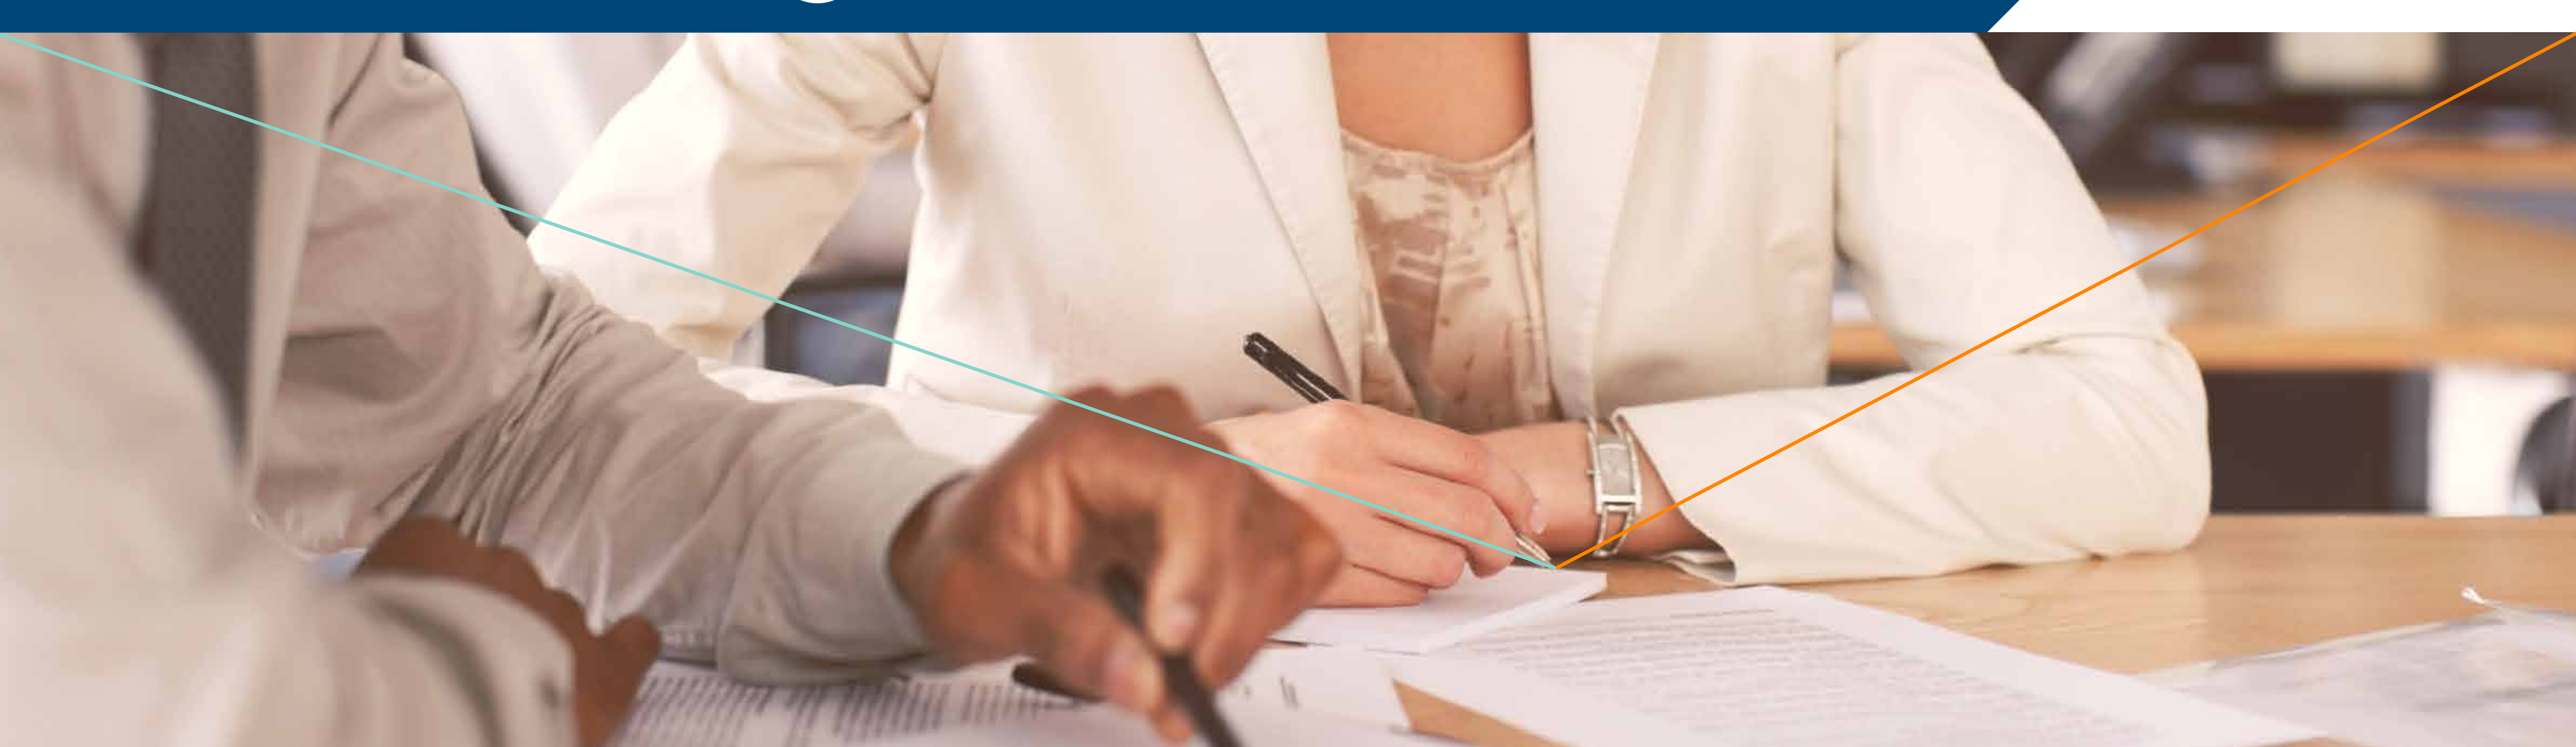

Right infrastructure that fits current and future needs

Maximum E-rate funding

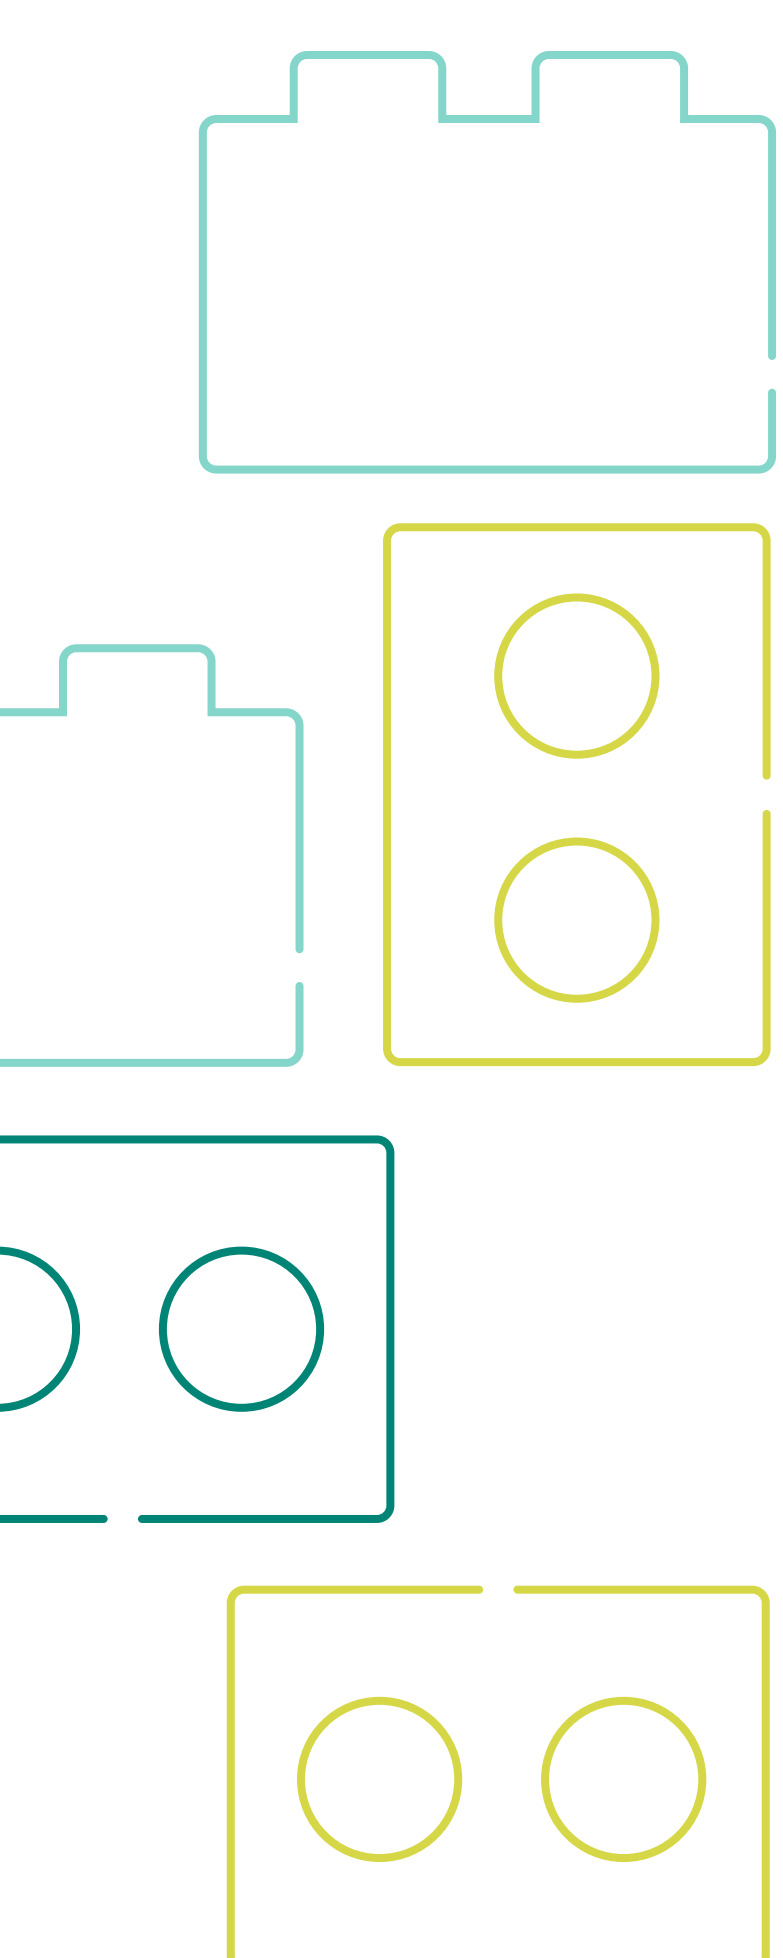

2 KNOW YOUR REQUIREMENTS

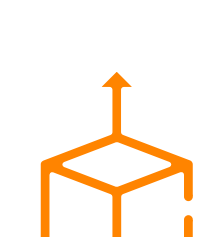

- ✓ Uninterrupted 1:1 learning
- ✓ Policy based network access: Students, Teachers, Guests
- ✓ Prioritization of learning apps and online testing
- ✓ Easy deployment and troubleshooting
- ✓ Network rightsizing: shift investments from wired to wireless

3 BUILD THE RIGHT NETWORK

High-performance **Gigabit Wi-Fi**

Choose your **architecture**: controllerless or controller-based deployment

Secure network access

Application **visibility** and control

Network **management**: Cloud or Onsite
