

ARUBA AP-ANT-7 2.4GHZ DETACHABLE ANTENNA

The AP-ANT-7 is a high-gain, 90° wide H-plane sectored indoor / outdoor (UV-stable and weatherproof) antenna ideally suited to applications where a wide directional pattern characteristic is preferable to an omni-directional pattern. This antenna is optimal for situations requiring the signal to be radiated from a mounting location in a corner, such as in offices, warehouses, shopping malls, auditoriums and industrial campuses.
