

WHAT OTHERS SAY ABOUT #ATM18EMEA

"I like to join the Atmosphere EMEA event as I am able to meet amazing and incredible people and speak and share knowledge across each other."

Michael Delaire-Courtes
— Airheads Community MVP

FR based and an Airheads Community member since 2016, Michael had read more than 6,909 community posts

"My top 3 reasons to attend Atmosphere EMEA are:

1. To take an expert level certification exam
2. To get some training to brush up on my skills
3. To meet my peers (especially the other Airheads)"

James Whitehead
— Airheads Community MVP

UK based and an Airheads member since 2009, James has read 23,064 community articles, spent 335,584 minutes on the community which is the equivalent of 5,593 hours! and opened 121 forum discussions. Also, he is one of our elite AMFX certified engineers!

10 REASONS TO ATTEND ATMOSPHERE 2018 EMEA

1. **14+ hours of learning** in 70+ **Airheads breakouts** on enterprise networks security, consideration for the next-branch, the Mobile First Architecture, next generation operations & monitoring and tomorrow's technology innovations.
2. **16+ hours of dedicated deep-dive training** prior to the event on one of six subject areas: Mobility v8 (Level 1 or 2) ClearPass, Meridian, Aruba Switching or Aruba Design Fundamentals.
3. **190+ Training seats on Aruba's main solutions:** network design, Meridian/ BLE, Switching and ClearPass.
4. **60 Free exam seats for one of Aruba's top 3 expert exams (ACDX)**
5. **5+ Sponsor booths** where key vendors will showcase their solutions and integration with Aruba products.
6. **The latest company news,** product announcements, and industry trends as presented by executives from Aruba and other key vendors sponsoring the event.

WHAT OTHERS SAY ABOUT #ATM18EMEA

“The biggest advantage to me was hearing from and being able to talk to the experts regarding AOS 8. Learning the details made us rethink the network reconfiguration we were undertaking at the time. This means that the design for the 2N resiliency transition that we came up with will be ready for AOS 8 when we implement it. This saved us a lot of time and hard work later down the line. The insights we got from Atmosphere were crucial to our long-term planning.

There were other seminars about AP and antenna design and Wi-Fi surveying that were great to hear. Hearing from the experts reassured us that we were doing things the right way here in Cambridge and that we are following best practice. We are quite a stickler for doing things properly (almost pedantically) rather than taking easier options and so it was encouraging to know that the energy we put into this has been worthwhile.”

Alexander Cox — Airheads Community MVP

UK based, Alexander is a member since 2015 and spent 11,049 min online. He is also a guest blogger on the community- check out his [blogs](#).

atmosPHERE 2018 emea

7. **Hands-on live demos** of the latest features in Aruba products and third party integrations at The Innovation Zone.
 8. The unveiling of the [#ATM18EMEA Security](#) Survey results and the chance to take the Atmosphere2018 EMEA stage and present your ideas with the [Call for Papers](#) program.
 9. **The opportunity to network and share best practices** with Aruba and partner engineers, Airheads members, MVPs, industry experts and product teams during any of the dedicated networking events.
 10. **1000+ other customer with similar challenges** to meet and discuss with.
- + **The Airheads Appreciation party** which is... a surprise!
