Digital acceleration is contributing to increased network complexity and cost

Cost Savings 54% estimate they have reduced network operating costs by at least 25%. Nearly one-third (32%) estimate at least a 50% reduction in costs.

Improved Efficiency 66% estimate they have reduced network performance issues by at least 25%. Nearly half (48%) estimate reducing network issues by at least 50%.

Faster Troubleshooting 63% estimate they have reduced the time it takes to resolve network issues by at least 25%. Nearly one-third (32%) estimate at least a 50% improvement.

Fewer Support Tickets 38% estimate they have reduced the number of IT support tickets they must address by at least 25%. Nearly half (48%) estimate reducing IT support tickets by at least 50%.

Cost Savings 66% estimate they have reduced errors (e.g., configuration issues) by at least 25%. Nearly half (48%) estimate reducing errors in half.

Improved Efficiency 66% estimate they have reduced the time it takes to deploy a new network or site by at least 50%.

Faster Deployments 64% estimate they have reduced the time it takes to deploy a new network or site by at least 50%.

The Benefits of Aruba Central

According to TechValidate, customers report the following benefits when managing their network with Aruba Central, a cloud-native solution:

- The ROI of Cloud-managed Networking with Aruba Central

The ROI of Cloud-managed Networking with Aruba Central

57% of IT professionals report a ROI of at least 4:1 network management tool.

64% of IT professionals report a ROI of at least 6:1 network management tool.

35% of network managers are the result of an efficient approach.

Cost Savings

64% estimate they have reduced the time it takes to resolve network issues by at least 50%.

66% estimate they have reduced network performance issues by at least 25%.

57% estimate they have reduced network operating costs by at least 25%.

Fewer Support Tickets

54% estimate they have reduced network operating costs by at least 25%.

48% estimate they have reduced errors (e.g., configuration issues) by at least 25%.

38% estimate they have reduced the number of IT support tickets they must address by at least 25%.

Faster Deployments

66% estimate they have reduced the time it takes to deploy a new network or site by at least 50%.

64% estimate they have reduced the time it takes to deploy a new network or site by at least 50%.

64% estimate they have reduced the time it takes to deploy a new network or site by at least 50%.

54% estimate they have reduced errors (e.g., configuration issues) by at least 25%.

Aruba Central has simplified how we deploy and maintain the network. This means our team can spend less time managing and troubleshooting the network, while employees outside our campus can leverage the network without any issues.

SHEFALI CHAUDHARI, Network Administrator, Green Mountain Health Care

Aruba Central is an excellent product with outstanding features. As soon as we are happy, we want to buy it immediately. We have already deployed it in other locations and expect to do the same in the future.

F. MORTON, CTO, Corinna

Aruba Central has made it easier to onboard new users with our corporate networks. This makes the process smoother and more efficient, thereby helping to keep customers satisfied.

INFRASTRUCTURE ENGINEER, Fortune 20 Telecommunications Services Company

Make the Shift to Cloud-managed Networking with Aruba Central

Join the 100,000+ customers who rely on Aruba Central to simplify day-to-day network operations, reduce cost, and improve IT efficiency.

What Are Customers Saying About Aruba Central?

"Aruba Central has simplified how we deploy and maintain the network. This means our team can spend less time managing and troubleshooting the network, while employees outside our campus can leverage the network without any issues."

SHEFALI CHAUDHARI, Network Administrator, Green Mountain Health Care

"Aruba Central has made it easier to on-board a new venue with non-technical people on site. This speeds up the turn-up process and gets the business running quicker, leading to happier customers."

INFRASTRUCTURE ENGINEER, Fortune 500 Telecommunications Services Company

"Aruba Central is an excellent product with outstanding features. As soon as we are happy, we want to buy it immediately. We have already deployed it in other locations and expect to do the same in the future."

F. MORTON, CTO, Corinna
