

MANAGE YOUR NETWORK IN THE CLOUD

Aruba Instant and switch customers with an active AirWave support contract can get 1 year of Aruba Central FREE!

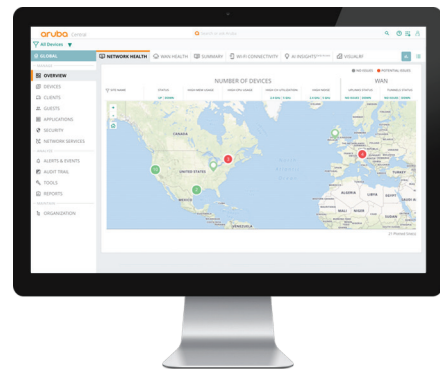

Aruba Central is an AI-powered network operations, assurance, and security platform that orchestrates Aruba access points, switches, SD-Branch gateways and business insights.

Existing AirWave customers with Aruba Instant (controller-less) and Aruba switch deployments who have cloud initiatives or need to perform contact tracing and location tracing can now take advantage of Aruba Central as a single pane of glass that delivers higher scale, resiliency, and location context, while also consuming new services on-demand.

Whether you manage a single campus or multiple branches, Aruba Central blends the right mix of simplicity and flexibility with the advanced AIOps that's needed for tomorrow's enterprise requirements.

ARUBA CENTRAL BENEFITS

- Predictable Software-as-a-Service (SaaS) model.
- Investment protection with easy simple conversion of Aruba Instant APs and Aruba switch managed deployments.
- Unified management across APs, switches, SD-WAN, and security.
- Reduced investment needed for cloud migration.
