

Data center networking value bundle promotion

High performance stackable switches for top of rack
deployments – Up to 84% off

Customer offer

Up to 84% off

Applicable for -

- CX Switch Value Bundle 1 (48P Copper & Fiber)
- CX Switch Value Bundle 2 (48P Fiber)
- CX Switch Value Bundle 3 (24P Copper)
- CX Switch Value Bundle 4 (24P Fiber)
- Effective 1 November, 2023–30 April, 2024 or while supplies last

Intelligent data center switching

Evolve your data center network to a simplified architecture, enhance performance, and reduce costs—all with embedded security.

Whether you run a small office, a mid-size company, or a large enterprise, next-generation data center switching from HPE Aruba Networking allows your organization to reduce data center complexity and accelerate automation, integration, and security with distributed services architecture design.

- **Simplify and automate IT operations:** Built on a microservices based architecture with identical operation for all switches, whether deployed in a data center or campus environment.
- **Accelerate service delivery:** Building on an already robust AOS-CX-based automation framework, HPE Aruba Networking's new network orchestration solution solves the problems faced by data center and IT administrators—like manual and siloed activities for IT service provisioning across compute, virtualization, storage, network and security.
- **Fully integrate compute, storage, networking, and beyond:** Seamlessly extend connectivity to your existing server and storage solutions for a consistent user experience and operating model.

HPE Aruba Networking's products and solutions are built to scale seamlessly with your business growth

CX Switch value bundles offer

- Best in class total cost of ownership
- Advanced: Layer 2 and Layer 3 AOS-CX features
- Port combinations of 10GbT and SFP+ to connect servers and fiber uplinks
- Accelerate provisioning with [Aruba Fabric Composer \(AFC\)](#)
- Cloud-centric design and intelligent automation

Simple, affordable and energy efficient top-of-rack solutions,

Upgrade data center capabilities, virtualize applications and simplify operations with an always-on infrastructure that scales seamlessly with your business growth.
