HEALTHCARE CONNECTIVITY BUNDLE
COVID-19 RAPID RESPONSE PROGRAM

MARCH 2020

INTRODUCTION

With the global spread of COVID-19, Aruba is doing everything in its power to help those on the front lines of the crisis. That's why we're donating **$50 million** in products through our healthcare connectivity bundles. These bundles are designed for rapid provisioning and deployment in hospitals, clinics, drive-thru testing locations, and temporary treatment centers.

TELL ME MORE ABOUT THE BUNDLES

Aruba has created two separate healthcare connectivity bundles to support you at this crucial time.

- **Option 1:** An outdoor Wi-Fi solution for **smaller sites** within a 100 meter proximity of the parent location.
  Connectivity option via Cellular or VSAT - will require third party provider

- **Option 2:** An extended-range outdoor Wi-Fi solution for **larger sites** beyond 100 meters.

Each bundle features a combination of Aruba outdoor access points and switches to help you meet your needs. Bundles can also be adjusted for **non-standard deployments.** In addition, the Airheads Volunteer Corps is available for additional engineering support and expertise.
