- Credit card payments only.
- Cannot be combined with any other discount.
- Discount is not applicable with any Authorized Training Center (ATC).

The HPE Aruba Networking Certified Network Technician certification is the affordable entry point to a career in edge-to-cloud networking.

What you'll learn:

In the Get the Edge course, you'll learn how to perform numerical conversions, analyze packets and do an initial switch setup, configure VLANs and 802.1Q, configure IPV4 routing, deploy a WLAN, and monitor a WLAN and wireless client. After completing the online course & labs, you'll be prepared to take the certification exam.

Objectives:

- Create a strong foundation of knowledge on wired and wireless networking technologies on which you can build your networking expertise.
- Set yourself up for a successful career leveraging HPE technologies.

Promotion Includes:

- Get the Edge eLearning course (approx. 12 hours to complete)
- Three, 4-hour lab vouchers (approx. 12 hours to complete)
- Pearson VUE exam voucher (60 questions, 90 mins to complete)
