

Edge Recognition for Life

Sunsetting Edge recertification exams and extending all Edge credentials for life.

Networks are constantly evolving, and so is the HPE Aruba Networking certification program.

The HPE Aruba Networking [certification program is evolving](#) with new technical certifications and training to validate skills with the latest edge-to-cloud technology solutions. The Edge Associate, Professional, and Expert certifications will also change as the program evolves.

Edge recertification exams will be retired effective October 31, 2023, and all active Edge certification holders in good standing will enter a lifetime status at that time.

What's next for Edge Certifications:

- The Edge [Associate](#), [Professional](#), and [Expert](#) recertification exams will go inactive on October 31, 2023 and there will be no new or updated Edge exams.
- Candidates may continue to renew their Mobility, ClearPass, Design, and Switching certifications with the Edge Associate, Professional, and Expert recertification exams through October 30, 2023.
- After October 31, all Edge Associate, Professional, and Expert certification holders in good standing will automatically be granted a permanent Edge recognition status.
- While HPE Aruba Networking will recognize your Edge credential for life, your underlying certifications (Mobility, ClearPass, Design, and Switching) will only remain valid through their expiration date.
 - [Log in](#) to HPE MyLearning to check the expiration date of your certifications.
- To align with the current goals and objectives of [HPE's Journey to One](#), HPE Aruba Networking will announce a new pan-HPE recognition program to acknowledge those with multiple HPE certifications in Spring 2024.
