

INTRODUCTION TO ARUBA CAMPUS ACCESS TECHNOLOGIES

WEBINAR SERIES: FEBRUARY 6 & 8 AT 9AM PST | 5PM GMT

Aruba Education Services is excited to introduce new certifications & technical training in 2023 that provide skills with Aruba's unified networking solutions. The **Aruba Campus Access** certifications give you the skills to configure and manage modern, open standards-based networking solutions that leverage the complete portfolio of Aruba industry-leading technologies. In this webinar series, you'll get a sneak preview of Aruba's latest technical training and a discount for the full **Aruba Campus Access Fundamentals** course.

This 4-hour webinar series will introduce you to an Aruba Campus Access network's critical wireless and switching technologies. Topics covered will include: an introduction to AOS 10, management with Aruba Central, bridged mode, tunneled mode, mixed mode, clustering, survivability, wired port access, and dynamic segmentation.

We encourage attending both parts of this webinar series, as the content will build on the previous session. Earn a certificate of completion for attendance & completion of the webinar evaluation. Replays will be available on the Airheads Learning Community. [Airheads Learning Community](#).

PART 1: February 6, 2023 | 9-11AM PST

PART 2: February 8, 2023 | 9-11AM PST
