

ARUBA ASSOCIATE SYSTEMS ENGINEER PROGRAM

EAGER TO START A CAREER IN TECHNOLOGY?

Aruba is excited to announce a new opportunity for recent college graduates. This rigorous program requires a temporary relocation to the Houston metro area for five weeks. Aruba has arranged for paid internship positions that will start as soon as this training program ends. The average salary for an experienced systems engineer with these skills is \$73,000 per year according to [Glassdoor.com](https://www.glassdoor.com).

PROGRAM DETAILS:

Selected candidates will attend five weeks of intensive certification and product training in Houston, Texas and Santa Clara, California. This training will help prepare you to attain the following industry certifications:

In addition to attending those technical trainings, you will have the opportunity to attend Aruba sales certification training, and an exclusive opportunity to attend Aruba internal SE training.

POST TRAINING OPPORTUNITY:

Interested candidates will be interviewed by Aruba partners prior to acceptance into the program. Selected individuals will be offered paid internships at select partners in cities across the United States. This internship will involve continued mentoring by both Aruba employees and the hiring partner's systems engineers. Upon successful completion of the above-mentioned certification exams, the internship will be converted to a System Engineer position at a higher base salary and include a signing bonus that will cover your initial costs in the program.

CANDIDATE RESPONSIBILITIES:

This program provides over \$12,000 training value to selected candidates. Each candidate is responsible for travel and lodging expenses for the duration of the program. Aruba estimates that cost to be approximately \$3000. Candidates will be required to stay in the Houston area for two weeks in June for instructor lead training. This program is rigorous and will require evening studying in addition to working with other candidates. Aruba will provide travel accommodations to our Headquarters location for one week of this program.

Interested in learning more? Internship opportunities exist in Seattle, Chicago, Northern NJ, Phoenix, Denver, Los Angeles, Spokane, Kansas City, MO, Irvine, CA and Riverside, CA. Timing is critical, classes start May 21st. If you are interested in this program, please email associatese@hpe.com.
