

Mobility Management System (MMS) Software and Appliance End of Life

Confidentiality Level: Aruba Customers, Sales and Channel Partners

All MMS Linux, Windows software and appliance SKUs support is being phased out effective September 30th 2009. We encourage Aruba sales teams and channel partners to position AirWave for WLAN management going forward.

Aruba Networks is announcing end of support for the following MMS SKUs:

Part Number	Description
MM-200	Aruba MM-200 Mobility Management System Appliance (up to 250 APs)
MM-SW	Aruba Mobility Management System Software (Up to 50 APs)
MM-SW-WIN	Mobility Management System Software for Windows (50 AP)
HW-MM-200-UPG	MM100 ---> MM200 Hardware appliance upgrade
LIC-MM-100	Mobility Management System Expansion
LIC-MM-UL-1	Unlimited AP Expansion License for MM-SW Mobility Management System Software
LIC-MM-UL-2	Unlimited AP Expansion License for MM-100/MM-200 Mobility Management System Appliance
LIC-MM-CTX-10	Mobility Management Context Expansion License - 10 Management Contexts
LIC-MM-CTX-50	Mobility Management Context Expansion License - 50 Management Contexts
LIC-MM-R3P-50	3rd Party Remote AP Provisioning - 50 AP
LIC-MM-R3P-250	3rd Party Remote AP Provisioning - 250 AP
LIC-MM-LOC	RFID tag tracking and API License
LIC-MM-MVIS	3D Mesh Topology Visualization License

Customer Migration from MMS to Airwave:

Please work with Bryan Wargo, General Manager of Airwave or your Airwave sales counterpart to devise a customer specific migration plan.

End-of-Sale Milestones:

- End-of-Sale Announcement: May 1st, 2008
- End-of-Support Date: September 30th 2009

Customers who have an existing ArubaCare support contract will continue to be supported until their contract expires. For questions regarding this end-of-sale announcement, please contact your local VAR, or support@arubanetworks.com.
