End-of-Sale Announcement for the Aruba AP-124 and AP-125 Access Points

Confidentiality Level: Public

This follows the previous End of Sales announcement for AP-124/125 in “ETSI countries” effective Jan 1, 2013. This announcement covers End of Sales in rest of the world, and adds some platform specific accessories.

Aruba Networks is announcing end-of-sale for the following products:

Aruba Part Number	Description	Recommended Replacement
AP-124	Aruba 124 Wireless Access Point (802.11a/n + b/g/n). 3x3 MIMO operation, 3x dual-band RPSMA detachable antenna interfaces, dual 100/1000Base-T (RJ-45) Ethernet Interface, Console Port, 5VDC power interface.	AP-134
AP-125	Aruba 125 Wireless Access Point (802.11a/n + b/g/n). 3x3 MIMO operation, integrated antennas, dual 100/1000Base-T (RJ-45) Ethernet Interface, Console Port, 5VDC power interface.	AP-135
AP-124-F1	FIPS/TAA version of AP-124	AP-134-F1
AP-125-F1	FIPS/TAA version of AP-125	AP-135-F1

In general, the proposed replacement products represent a superset from a functional and performance perspective. The specific replacement model will vary depending on the application.

We currently expect to be accepting final orders through August 1, 2013, however this final date will depend on the continued availability of stock and, at Aruba’s discretion, the actual end of sale date may be earlier. End of support for the products is August 1, 2018. We strongly encourage you to transition all backlog and new business to the Aruba AP-134/135 as the recommended solution.

Accessories and other related products

With this EOS notice, all products in the Aruba 120 Series Access Points have entered the end-of-life phase. As a result, the end-of-life milestones defined here also apply to all associated unique accessories:
