End-of-Sale Announcement for the Aruba AP-60 and AP-61 Access Points

Aruba Networks is announcing end-of-sale for the following products (and associated accessories):

Aruba Part Number	Description
AP-60	Aruba AP-60 wireless access point with dual RP-SMA external antenna connectors
AP-61	Aruba AP-61 wireless access point with integral tri-Band antennas

The above products can be replaced with the following products, which are functionally equivalent.

Aruba Part Number	Description
AP-92	Aruba AP-92 Wireless Access Point, 802.11abgn, dual-band, single radio, with external antenna connectors (RP-SMA)
AP-93	Aruba AP-93 Wireless Access Point, 802.11abgn, dual-band, single radio, integrated antennas

The Aruba AP-92 and AP-93 products represent a superset from a functional, performance and interface perspective and should be considered a direct replacement for the AP-60 and AP-61.

We currently expect to be accepting final orders through May 31, 2011, however this final date will depend on the continued availability of stock and, at Aruba's discretion, the actual end of sale date may be earlier than May 31, 2011. End of support for the products is May 31, 2016. We strongly encourage you to transition all backlog and new business to the Aruba AP-92 and AP-93 as the recommended solutions.

Definitions

- End-of-Sales Announcement (this document): Date of official end-of-sales notice.
- End-of-Sales Date: The last date to order the product through Aruba Networks point-of-sale mechanisms. The product is no longer for sale.
