End-of-Sale Announcement for the Aruba AP-70 Access Point

Aruba Networks is announcing end-of-sale for the following product (and associated accessories):

Aruba Part Number	Description
AP-70	Aruba AP-70 access point with Integral Antenna and Quad RP-SMA external antenna connectors (2.4Ghz & 5Ghz Bands with Diversity)

The above product can be replaced with the following products, which are functionally equivalent.

Aruba Part Number	Description
AP-105	Aruba AP105 wireless access point
AP-124	Aruba AP-124 wireless access point
AP-125	Aruba AP-125 wireless access point

In general, the Aruba AP-105, AP-124 or AP-125 represents a superset from a functional and performance perspective. The specific replacement model will vary depending on the application.

We currently expect to be accepting final orders through May 31, 2011, however this final date will depend on the continued availability of stock and, at Aruba's discretion, the actual end of sale date may be earlier than May 31, 2011. End of support for the products is May 31, 2016. We strongly encourage you to transition all backlog and new business to the Aruba AP-105 or AP-124/125 as the recommended solution.

Definitions
