

End-of-Sale Announcement for Legacy NMS1000 products

Aruba, a Hewlett Packard Enterprise company is announcing end-of-sale for the following legacy Network Management System:

Aruba Part Number	Description
NMS1000	Intelligent Network Management System

The products below are the recommended replacement products for the equivalent ones above. The suggested devices should functionally replace the original devices, however this is offered as reference information only. Aruba offers no guarantee that the suggested replacement devices will have exactly the same form, function or specification as the phased-out devices.

Aruba Part Number	Description
MC8000	Access Controller for AP and Mesh routers, AC 100V - 240V
MC8000-LITE	A Central Configuration Tool to Deploy Mesh Network, Window based, and it can support up to 50 mesh nodes

We currently expect to be accepting final orders through November 30, 2010, however this final date will depend on the continued availability of stock and, at Aruba's discretion, the actual end of sale date may be earlier. End of support for the product is November 30, 2011. We strongly encourage you to transition all backlog and new business to the equivalent replacement products as the recommended solution.
