ClearPass Essentials 6.5 Instructor led 5-day Course overview

The Clearpass Essentials 6.5 instructor led course provides participants with a foundation in Network Access Control using the Clearpass product portfolio. This 5-day classroom session includes both modules and labs covering major features of the Clearpass portfolio. Students will learn how to setup Clearpass as a AAA server and configure the Policy Manager, Guest, OnGuard and OnBoard feature sets. In addition, the content will cover integration with external Active Directory servers, Monitoring and Reporting, as well as deployment best practices.

This class prepares students for the Aruba Certified Clearpass Professional (ACCP) examination.

Course pre-requisites include familiarity with Network Standards, basic routing & switching knowledge, RADIUS, 802.1X and AAA experience.
