

ARUBA EDUCATION SERVICES:

# ARUBA ESP WEBINAR SERIES

## COME LEARN ABOUT ARUBA'S EDGE INNOVATIONS

In this era of data at the Edge, it's clear that today's network architecture needs to be AI-powered and cloud-native—to cope with the massive amounts of data and decisions required in near real-time. Aruba ESP combines the technology principles of AIOps, Zero Trust Security, and a Unified Infrastructure to help businesses capitalize on opportunities at the Edge. Join Aruba Education Services in these free 1-hour technical webinars to learn about Aruba ESP. Each topic is repeated to cover multiple time zones.
