

ARUBA EDUCATION SERVICES PRESENTS:

ARUBA ESSENTIALS for EMEA

WEBINAR SERIES OVERVIEW

The Aruba Essentials webinar series introduces fundamental networking concepts with three mini-courses broken into 2-3 sessions. There are no prerequisites required, ideal attendees are early in career, students, or IT professionals who are new to networking.

In **Aruba Networking Essentials** you will learn the basics of wired networking. Learn what a basic computer network is, compare local and wide area networks, use cases, and implementation types.

In **Aruba Mobility Essentials** you will learn the basics of wireless networking. Learn how Radio Frequency (RF) works, compare wired and a wireless networks, understand Wi-Fi standards and the WLAN organizations that determine them.

In **Aruba Network Security Essentials** you will learn the basics of network security and what it takes to protect a network. Explore what threats pose a risk to a basic computer network and what security technologies are available to harden your devices against these attacks.

Click Learn More below to read the full descriptions for each webinar series & register. A certificate of course completion will be provided for each series you attend.
