

HPE Networking Instant On Access Point AP32

Startup Guide

Hewlett Packard Enterprise

HPE Networking Instant On Access Point AP32 supports the IEEE 802.11ax WLAN standard in the 6GHz band (Wi-Fi 6E) as well as the 5GHz and 2.4GHz bands, while also supporting IEEE 802.11a/b/g/n/ac wireless services.

Package Contents

Each AP package contains the following items:

- HPE Networking Instant On Access Point AP32 x 1
- Mount bracket x 1
- Ethernet cable x 1

If you have ordered HPE Networking Instant On Access Point AP32 bundle, the package would also include a power supply unit to power the AP through an electrical power outlet.

Inform your supplier if there are any incorrect, missing, or damaged parts. To return this product, repack this unit and or other included materials into the original packaging before returning it to the supplier.

Regulatory Compliance

HPE Networking Instant On access points are classified as radio transmission devices, and are subject to government regulations of the host country. The network administrator(s) is/are responsible for ensuring that this device operates in accordance with all local/regional laws of the host domain. Access points must use channel assignments appropriate to the domain in which the access point is deployed.

The regulatory model numbers (RMN) for the HPE Networking Instant On Access Point AP32:

- AP32 RMN: APIN0615

Changes or modifications to this unit not expressly approved by Hewlett Packard Enterprise can void the user's authority to operate this equipment.

Brazil

Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em sistema devidamente autorizados.

United States

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit that is different from that to which the receiver is connected
- Consult the dealer or an experienced radio or television technician for help.

Improper termination of access points installed in the United States configured to a non-US model controller is a violation of the FCC grant of equipment authorization. Any such willful or intentional violation may result in a requirement by the FCC for immediate termination of operation and may be subject to forfeiture (47 CFR 1.80).
